

# TRIPLETT ROUND-UP

## Security & Surveillance Issue

### Is Your Surveillance System Working Properly?

#### Monitors

The **HDCM3 CCTV Security Camera Test Monitor** features an 8" 1080P LED Display with 1280 X 720 resolution so you can keep an eye on things. Connects via HDMI, VGA and AV inputs. A rechargeable battery with AC adaptor keeps you running. Even with the ruggedized construction, this monitor remains portable and lightweight. Conveniently mounts to a desk or a wall, using the included swivel stand.

Use with Security Cameras during setup, testing, and monitoring; DVRs, Cable/Satellite TV boxes, and DVD Players; Computers and Laptops as a second monitor; DSLR Cameras as a second screen while broadcasting live events; Raspberry PI Projects and much more!

If you're looking for 4K capabilities, look no further than the Tripplett **HDCM-4K Portable 7" HD TFT LCD Monitor**. A 4K security camera test monitor with 1920 X 1080P resolution and 1.4 HDMI. It can be used for temporary or permanent connection to any NVR, DVR, Cable/Satellite box, computer, or other video source that has an HDMI or BNC connection.

Use with Security Cameras during setup, testing, and monitoring; DVRs, Cable/Satellite TV boxes, and DVD Players; Computers and Laptops as a second monitor; DSLR Cameras as a second screen while broadcasting live events; Raspberry PI Projects and much more.

Versatile stand allows placement on top of desk or DVR/NVR, mounting to wall, or mounting to IT cabinet or server rack. Connect using HDMI, Composite BNC-In/BNC-Out, and Component BNC. Use AC power or an externally mounted, easily swappable rechargeable battery (7.4V 4400mAh 32.6Wh) with external battery charger. All these features, and this monitor remains extremely portable, weighing in at only 1lb!
