STW35 - Metal Stopwatch

Rugged Metal Housing with Metronome & Temperature Functions

The STW35 combines rugged durability with advanced timing, environmental monitoring, and pacing functions, making it ideal for sports, training, laboratories, industrial applications, and educational use. Housed in a durable metal case, it features 1/100th-second resolution and accuracy with a timing capacity of up to 99 hours, 59 minutes, and 59.99 seconds. In addition to stopwatch operation, the STW35 provides 12/24-hour time display, calendar and weekday indication, a daily alarm, lap timing with two-lap memory, counter function, and a programmable countdown timer with memory. An integrated metronome offers selectable beat rates of 8, 10, 20, 30, and 60 beats/minute for pacing and training applications, while the built-in thermometer measures temperatures from 14 to 158°F (-10 to 70°C). A backlit display ensures clear visibility in low-light environments, making the STW35 a versatile timing tool for a wide range of professional and recreational applications.
